

Patrícia Schmidtová

NLP Research Scientist, LLM Evaluation and Reliability

patricia.schmidtova@gmail.com | patuchen.github.io
linkedin.com/in/patricia-schmidtova | github.com/patuchen

Summary

NLP researcher specializing in **LLM evaluation and reliability** (PhD expected March 2027), with **7 years of industry experience** as an NLP Team Lead and Project Manager. Led the **WMT 2026 Multilingual Instruction Shared Task**. **2 Best Paper Awards** (EACL 2024, INLG 2024), publications at EMNLP, EACL, INLG, TACL and Computational Linguistics, and 800 citations. Elected ACL SIGGEN Board Member.

Experience

Lead Organizer, WMT Multilingual Instruction Shared Task 2026

- Led the 2026 shared task on multilingual LLM instruction following at the Conference on Machine Translation (WMT), covering **24 languages**, **3 tasks**, and **8 participating teams**.
- Coordinated all organizing efforts and led the evaluation of submitted systems and baselines.

Researcher, JSALT 2026 Workshop, Johns Hopkins University Jun 2026 - Aug 2026

- Contributed turn-taking, interruption, latency and response quality metrics and an LLM-as-judge pipeline to a simulator for testing full-duplex spoken dialogue models.

PhD Researcher, NG-NLG (ERC project), Charles University 2023 - Present

- Evaluating and improving the reliability of LLM-based NLG, supervised by Ondřej Dušek.
- Built benchmarks and evaluation pipelines for LLM faithfulness and hallucination.
- Supervised student research projects and theses, including two resulting in INLG 2026 papers.

Visiting Researcher, University of Bonn Sep 2025 - Dec 2025

- Explored how interpretability-inspired hallucination detection methods generalize across languages.

Data Science Intern, Trivago Oct 2024 - Jan 2025

- Designed an evaluation pipeline (human, automatic, impact) for LLM-generated summaries.

Junior Researcher, JSALT 2023 Workshop Jun 2023 - Aug 2023

- Led data selection and augmentation for the team on automatic design of conversational models.

Data Scientist and Project Manager (Prince2 Agile), Trask Solutions Feb 2019 - Jul 2024

- Led an NLP team focusing on process automation in Java and Python; delivered three applications automating over **80%** of document-based workflows.
- Managed a year-long, 30+ team UniCredit project for Croatia's 2023 Euro adoption, incl. budgets.

Data Scientist, RobotReader Feb 2017 - Dec 2018

Education

2023 - Present PhD in **Computational Linguistics**, Charles University *Expected March 2027*
2019 - 2022 MSc in **Computational Linguistics**, Charles University *Honors*
2016 - 2019 BSc in **Computer Science**, Charles University

Selected Publications

800 citations, h-index 10. Full list on Google Scholar.

Skills

Evaluation Methods: LLM-as-judge, meta-evaluation, human evaluation design, annotation quality control, benchmark design, multilingual and cross-lingual evaluation, contamination detection

Human Evaluation Tooling: crowdsourcing (Prolific, Toloka), annotation interfaces (factgenie, Pearmut)

Modeling: LLM fine-tuning, multilingual inference, interpretability (activation patching, steering)

ML Stack: PyTorch, Hugging Face (Transformers, Datasets, Evaluate), vLLM, LLM APIs, Weights & Biases

Programming and Infrastructure: Python, Java, SQL, pandas, Slurm, GCP

Service

Student Research Workshop Co-Chair, EACL	2027
Tutorial Co-Lead, Human Evaluation of Multilingual Tasks (EAMT, KONVENS, MT Marathon)	2026
Workshop Co-Organizer, GEM @ ACL	2026
Elected Student Board Member, ACL SIGGEN	2025 - 2026
Founder and Co-Organizer, Workshop for Young Researchers in NLG (YNLG) @ INLG	2025 - 2026
Workshop Co-Organizer, Practical Data2Text @ INLG	2024
Workshop Co-Organizer, Young Researchers' Roundtable on Spoken Dialogue Systems	2023
